

Membership Report for November 16, 2013

From the last report at the end of September, I am very pleased to report that we are growing in membership as a District. Although specific and totally accurate numbers are difficult to reconcile I am generally pleased with the efforts and the direction that we are heading. The difficulty occurs with our numbers for a variety of reasons. In some cases I have had the addition of new members reported to me but the actual numbers do not match ZI or our Treasurer's numbers as clubs do not always send in the new dues in a timely manner. It is important that clubs attend to this in a timely manner. Many times I am receiving the information third hand and delays in reporting can affect accurate reporting by the membership chair... Hopefully we can find a solution to these challenges. The total right now is 885 which has increased from 874 since September 15, 2013. (# from our Treasurer)

As chair I was very pleased with the enthusiasm shown at the Membership Workshop at the Fall Conference. There was an excellent number of interested Zontians at the workshop and the Power point is available on the D4 website for those who wish to access the information.

Remember I am available to help with membership in any capacity that I can- attend club meetings, attend membership drives or just discuss possibilities in an email. It is important that AD's remind Clubs of this offer.

We have six months left in this biennium which means 6 months left to try and attain our membership goal for the biennium. Everything is possible as we work together to increase membership in District 4.

**Remember the Keys to a Club's Success: Recruit, Retain and Rejuvenate!
Let's Make it Happen!!**

**Respectfully submitted,
Joanne Raymond
Lt. Governor/Membership Chair**
