

Report from the United Nations Chairperson – Joanne Raymond

Since our last meeting in January, I have continued to monitor the United Nations website about new developments.

I have shared the You tube publication on the UN Women Launch as shared by the Governor with all of the Presidents by way of our District communication. I continue to be available to clubs to give a presentation about the UN and have a few scheduled for the fall.

I have also contacted the League of Women Voters of New York as to whether they again will be organizing a trip to the United Nations as they have done in the past several years which we have supported financially as a District and have been informed due to the renovations of the United Nations they are not planning to organize the event this fall. At this time I will investigate the feasibility of organizing an event for the District.

I am still hoping to visit more clubs during the second year of the biennium.

Respectfully submitted,

Joanne Raymond

UN Chairperson – District 4
